

Centurion Polo 50R 5hp Cultivator/Rotavator (Honda 5hp engine)

Centurion Polo 50R 5hp Cultivator/Rotavator (Honda 5hp engine)

The Centurion Polo 50R cultivator/rotavator is an easy to operate and easy starting petrol cultivator with forward and reverse gears. The Polo has a solid steel frame and a powerful 5hp Honda GC160 engine. The Centurion Polo 50R Cultivator has a 54cm tilling width and comes complete with front transport wheel and rear depth gauge - an ideal machine for larger gardens or the allotment. The handles fold for easy storage, or for transporting the cultivator in the boot of your car.
